SECURITY &
INNOVATION FOR
THE DIGITAL LIFE

Neotion CAM

NEOTION designs, develops and distributes a wide range of DVB **Conditional Access Modules (CAM)** embedding the main Conditional Access Systems (CAS) to Pay-TV operators across the extended Europe. With longstanding experience in the design, security, production and sales dedicated to the Pay-TV market, NEOTION gives its customers **complete assurance of the highest quality and reliability.**

Neotion OTT GATEWAY

To cope with the significant changes in the Pay-TV landscape, evolving from DVB distribution towards IP, with online content viewing (live or video-on-demand) largely growing with IP traffic capability and the proliferation of connected devices, NEOTION offers a new service for individual TV watching on mobile devices anywhere, anytime. On a fully Satellite-based network, with its headless **OTT Gateway**, NEOTION helps you in this new ecosystem to **extend your audience** with a real Broadcast **Quality of Service (QoS).**

PORTFOLIO

OUR NEXT INNOVATION

Capitalizing on a **rich and complete know-how** acquired through years in the Digital TV industry, NEOTION is moving towards Digital Life: entering the IoT market. Made strong by its successful achievements, NEOTION is **bringing security today** as one of the top remaining concerns of the IoT landscape for safer IoT deployments tomorrow. In the meantime, NEOTION is developing partnerships with leaders in predictive analysis and embedded Artificial Intelligence, leveraging security into empowered **Intelligent IoT devices.**

OUR VALUES

With more than 15 years of experience and **millions of secure devices deployed** for the Pay-TV industry, providing secure elements, cryptographic IPs in chipset, secure boot and software implementation, authenticated software and robust hardware root of trust, NEOTION is working with the top companies specialized in security and is **considered to be an expert in Security by design.**

Secure by design

By their very nature, technology driven markets required agility. Managing change and providing real-time monitoring, NEOTION is delivering **scalable and custom solutions** alongside the project life cycle (from PoC to massive deployment) with **one main priority: customer satisfaction** in a long-term approach.

Business Agility

Because NEOTION monitors technology trends, anticipates market evolutions and understands customers' changing usages, we are able to **propose a disruptive vision** and demonstrate innovative solutions. NEOTION **co-creates value** for customers, relying on its strong and relevant technical and business partnerships.

Creative approach

With hardware & software design expertise at our headquarters in Marseille, a dedicated ASIC design center in Sophia Antipolis, and a manufacturing site in Bordeaux, NEOTION is present in the right business hubs. NEOTION offers a full chain of services including in-house production tools development, logistics, and packaging design: **a guarantee of quality and cost efficiency.**

From design to manufacturing

OUR ACHIEVEMENTS

Since 2000, NEOTION has been a leader in security solutions for digital Pay-TV, partnering with the main CAS vendors and as a cofounder of CI Plus technology for TV encryption. Beyond TV content, in an ever-more connected world, securing devices – attractive targets for hackers – and protecting end-user personal data must be part of any new and innovative solution.

Whatever your challenge, delivering protected Pay-TV bouquets, introducing new services such as OTT or any IoT driven solutions to your core business, security must remain a top concern. NEOTION is a trusted and well referenced partner to meet these new challenges in a long-term perspective.
