

NEOTION renews its partnership with Irdeto

Aubagne, France – September 2019, 15th

NEOTION today announces the renewal of its cooperation with Irdeto, the world leader in digital platform security. The partnership will focus on CI+ 1.4 CAM, with NEOTION providing in-depth experience, increased performance and in-house skills combined with investment in modern machines and fully automated processes.

Alongside this partnership, NEOTION and Irdeto are demonstrating how a CAM is able to provide pay-tv operators a branded and enhanced TV user experience similar to that of a set-top-box, relying on the latest HbbTV open standard, even in a non-connected environment.

"We are glad to renew our partnership with Irdeto on CAM business, as Irdeto has always been an active contributor to the success of the CAM. Its disruptive solutions have been instrumental in demonstrating that the CAM, particularly with HbbTV technology, has a long future in this changing and complex pay-tv industry," comments Nathalie BRESSON, Head of Marketing at NEOTION.
