

NEOTION enlarges its VERIMATRIX VCAS™ DVB CAM range

Aubagne, 8 June 2015: NEOTION confirms its partnership with VERIMATRIX and enlarges its CAM portfolio for any Pay-Tv Operators requiring a CAM with VCAS™ for DVB Broadcast cable, satellite and terrestrial revenue security solutions.

NEOTION is able to provide Pay-Tv Operators with **NEOTION CI Plus Consumer CAM** range embedding Advanced Security cardless solution. The **NEOTION CI Plus 1.3 Advanced Security CAM** integrates the latest CI Plus resources such as Specific Application Support (SAS) and, plugged in a Connected and HbbTV environment, allows Pay-Tv Operators to merge linear TV with IP-based on-demand services like Over-The-Top (OTT).

NEOTION also enables Pay-Tv Operators to address collective distribution such as hostels, residential houses or hospitals with professional modules. The **NEOTION DVB-CI Advanced Security PRO CAM** is able to descramble services simultaneously according to the Operator signalization (video, audio and subtitles PID allocation...). The full range is declined in 4 different packages (descrambling up to 2, 4, 6 services and more than 7 services) to allow Pay-Tv Operators deployments at flexible costs according to their TV services plans. The NEOTION Pro CAMs are beforehand tested on a large panel of Integrated Receiver Decoders (IRDs) both in NEOTION labs and Pay-Tv Operators labelled professional equipment.

For more information, please visit NEOTION booth at ANGA COM, Level 10.2 booth #J36.
